time – DVD system approx. 4.5 to 5.5 hours, depending on the model

– AUX-IN upgrade approx. 1.25 to 2.5 hours – DVB-T upgrade: approx. 2.5 hours – ACM connection upgrade: approx. 1.25 hours

Operating instructions

01 29 0 398 182 (included in the DVD system set)

Note –

For the complete BMW DVD system portable, you need to order at least 3 part numbers: DVD system, docking station and vehicle-specific installation kit.

- Additional parts may be required depending on the vehicle equipment (see EPC).
- Please note that according to worldwide existing international agreements, six different DVD country codes exist.
Depending on where you are staying, a correspondingly coded DVD system must be ordered.
- Please inform the vehicle owner that the use of child seats in the X5 (E70) can lead to a perceived small distance between the screen and the child seat.

Notes on country codes

- Country code 1 is for the following regions
intended: Canada, USA and US territories
- Country code 2 is for the following regions
intended: Europe, Japan, Middle East, Egypt, South Africa, Greenland
- Country code 3 is for the following regions
intended: Southeast Asia incl. Hong Kong and South Korea
- Country code 4 is for the following regions
intended: Australia, New Zealand, Caribbean, Central America, South America, Pacific Islands
- Country code 5 is for the following regions
intended: Former CIS countries, Indian Subcontinent, Mongolia, North Korea, Africa (not Egypt, not South Africa)
- Country code 6 is intended for the following regions: China

safety notice

- The use of the DVD player in the vehicle is only permitted within the docking station
- The optional playback via the control Display is only possible and permissible when stationary
- The vehicle owner must be made aware of this be that the DVD player when exiting the Vehicle can be seen, since for this im There is no insurance cover in the event of theft
- On vehicles with DWA (SA 302) off are permitted, the vehicle owner must also be informed that the optimum function of the DWA is only guaranteed when the DVD monitor is folded in. Vehicles with DWA require additional parts for retrofitting (see page 3).
