Original BMW accessories Navigation Portable HD Traffic 1er (E8x/F2x), 3er (E9x), X3 (E83), X1 (E84) and Z4 (E89)

Product description

With the Portable HD Traffic navigation system, which is new to the range, BMW offers an innovative navigation system including a map of Europe and HD Traffic real-time traffic reports at home and abroad. The preinstalled Europe road map covers 45 Western and Eastern European countries.

The mobile navigation device with the 5 inch (13 cm) display is perfectly integrated into the interior of the vehicle without any visible cables. The navigation instructions and hands-free facility are output via the vehicle loudspeakers. The voice-controlled destination input also makes handling easier.

The navigation device has a BMW start screen, BMW vehicle symbols and a BMW dealer directory, which enables the customer to easily locate the nearest BMW dealer in the area.

Details

The customer receives HD Traffic and other internet-based travel services such as TripAdvisor or Google Search free of charge for 12 months with the integrated SIM card. The customer can benefit from the LIVE* services in over 30 European countries.

*The services available may vary!

1. HD Traffic

Most accurate traffic information, every two minutes to be updated. This is up to seven times more frequent than with all other navigation devices. No delays, because with HD Traffic you are smarter than the traffic jam. And thanks to comprehensive road coverage, driving is stress-free, and that throughout Europe.

2. Local search with Google

Use the local Google search function to various cutting-edge destinations such as restaurants, Hotels or shops near the current to find position.

3. Weather

The navigation device receives regional and 5-day weather forecasts so that the customer can take current weather conditions into account when planning the trip.
