

## Product information

### ColorSystem BMW Group Touch-up pen sets (new colors)

**Product description** Each touch-up pen set consists of a coloring base coat and a protective clear coat. This original BMW Group product can be used to restore the factory two-layer structure of the top coat. The paint is applied using the brush on the screw cap. The design and packaging have been adapted to the latest corporate identity of Automotive Chemicals products.

#### Details

- The customer can use the do-it-yourself set to carry out smaller paint jobs. Repair damage such as scratches or stone chips **yourself**.
- A visit to the workshop is not necessary and **expensive repairs are no longer necessary**.
- The touch-up pen set is particularly suitable for retailers to be able to carry out small repairs **without having to spend time mixing the colors**.

Touch-up pen set for BMW vehicles

#### Recommendation

The product is ideal for cross-selling with the following products:

- Paint spray set
- Lacquer plaster

#### scope of delivery

- Container size: 12 ml base coat, 12 ml clear coat

Touch-up pen set for MINI vehicles

## Touch-up pen sets (new colors)

### Technical information –

The surface must be clean, dry and free of grease. For bare metallic areas, we recommend applying the touch-up pencil primer 51 91 2 361 683 beforehand.

- Before use, the base coat must be shaken thoroughly (at least 5 minutes), otherwise color variations may occur.
- After the initial application (base coat), allow it to dry for approx. 30 minutes before applying the clear coat. Drying time depends on the ambient temperature.
- The total storage time is 84 months (7 years).

#### Note:

There has been a corporate identity change in the packaging of this product. The old stocks can still be used and sold.

#### Safety notice:

Please note the application and safety instructions on the product.
