

# Product information

## Original BMW parts Rear view camera retrofit kit (SA3AG) X3 LCI (F25), X4 (F26)

### Product description

The reversing camera gives the driver an unrestricted view to the rear and shows the area behind the vehicle on the control display. The system makes it easier to see when reversing and when parking at speeds below 15 km/h. On models with a trailer hitch, the reversing camera also has an extended zoom function.

### Details

- Easier parking and maneuvering in the tightest of spaces.
- Safe driving operation.
- Unrestricted rear view.

### scope of delivery

- wiring harness
